Judith Christiansen reviewed the work done by the Facilities Task Force. Following questions from the Core Team, the work was unanimously approved by the Core Team.

Michael Stuart reviewed the work done by the Financial Planning Task Force. Several questions

were raised regarding the Task Force's first Strategic Intent. It was suggested that the Task Force re-work the Intent and the Core Team will review it at the October meeting.

There was inadequate time at this meeting to review the work of the Professional Development Task Force or the Student Achievement Task Force. The Key Initiatives from these Task Forces will be forwarded to Core Team members for their review prior to the next meeting in October.

Additionally, the Strategic Intents and Key Initiatives from each Task Force will be placed on the District's web site.
