Career Development Council

Career Development Council provides Horseheads High School Students an opportunity to learn about different careers through Job Shadowing, Career Panels and Internships

What is SHADOWING?

A shadowing enables you to spend part of a day with an adult in a career you are interested in at that person's worksite. You will learn about the job responsibilities, the format of a typical day, the salary range, and the work environment. You must provide your own transportation to the experience. Shadows can be done during or after school time depending on both the student's and host's availability.

What is a CAREER PANEL?

These are informational meetings arranged around a particular career field. There is a panel discussion by adults followed by student question time. This is a larger group activity. It can help provide awareness to a field. Watch for flyers...panels this year will be on education, medicine, engineering, law enforcement, and human service careers. Career Panels are held during school hours. Transportation may be provided. Sign up in Guidance - space is limited, and seniors have priority.

What is an INTERNSHIP?

An internship is a 6 week (30 hours) or 12 week (60 hours) work experience for school credit. Students must be a junior or senior with an excellent attendance record and a strong interest in a specific career area. There are weekly homework assignments and a short research project that must be completed in order to receive full credit. All internships are held after school. Interested students should talk to their guidance counselor before applying for the internship.
