at least 7 inch

Donations/Optional - Never expected, always appreciated. 😊

- Chisel tip dry erase markers – black
- Headphones
- Erasers (rectangular or cap erasers)
- Hand sanitizer and/or disinfectant wipes

Thank
you

Welcome to Third Grade!

Dear Parents,

June 25, 2026

We would like to extend a warm welcome to third grade. We look forward to working together with you so that your child has a successful year.

Third grade is a year of transition between the primary and intermediate grades. Therefore, third graders can expect an increase in independent work and responsibility. Together, we will try to make the transition as smooth as possible. Your child will spend their days immersed in their learning, communicating with their peers, and actively thinking. We will encourage every student to take risks, work hard, and push themselves to do their best. Your child will have homework each night that reflects their learning each day. This is a great opportunity for you to ask questions about their learning, which will help your child reflect and think about all the amazing things they do during class time.

There is much to look forward to in third grade. Your child can expect to learn about the History of Horseheads, Communities & Cultures around the World, multiplication, division, fractions, structures of animals and properties of magnets to name just a few. Your child will participate in many hands-on projects such as our Wax Museum, Mexican Fiesta, Japanese cultural exchange, several STEM exploration projects and the Australian animal research project. Students will make use of the laptops in the classroom for research and presentations throughout the year.

Have a safe and happy summer, keep reading and practicing your addition and subtraction math facts to be ready for learning in the fall!

Kindly,

Third Grade Teachers

Mrs. Blasic

Mrs. Calzaretta

Ms. Potter

Mrs. Wolf
