

May 1, 2020

Dear Incoming Kindergarten Parents and Guardians,

We look forward to your future kindergartner coming to our school as the Class of 2033. One of our favorite events of the year is to welcome your family and child to our kindergarten orientation and screening. These events help your family become accustomed to our school while we get to know you and your child.

Unfortunately, due to the COVID-19 pandemic the scheduled kindergarten orientation and screening events in May have been postponed. We plan to have these events when possible so that we can provide a smooth and positive transition into kindergarten.

Once we receive further direction from our Governor on when we may resume school activities/events, we will be in touch with a schedule and further information.

Please know that we look forward to officially welcoming you and your child into our kindergarten program/school community.

Sincerely,

Horseheads Central School District Elementary Principals
